REPORT 2019

Promotion and Organization

Fispal Tecnologia 2019 exceeded expectations, consolidating itself as the main meeting of the Latin American food and beverage industries!

The 35th anniversary edition of Fispal Tecnologia, held on June 25-28 at São Paulo Expo, **surpassed the 2018 edition which had the best result ever recorded** regarding the **qualification of visitors to the food and beverage industry**. There were **39,370 attendees** who had the opportunity to check out the news of the **480 exhibitors**, and participated in **13 different attractions**, highlighting Fispal Tec Arena, which offered **more than 200 hours of professional content**, and the national and international buyer program that, together, moved over **R\$ 23 million**.

Companies serving and offering **products, services** or **solutions** for the F&B industry cannot be left out of this business and update meeting!

Check the following pages for the details of this edition and ensure your participation in 2020!

FÓRUM DE EMBALAGENS

The governor of São Paulo, João Doria, together with the director of ITAL (Food Technology Institute), Luis Madi, and the chairman of the Informa group, Marco Basso, attended the opening plenary session of **FispalTec Content Arena**, the great news for this edition of the event, composed of 4 large Forums: the **Fispal Tecnologia Forum**, which approached factory management and Industry 4.0; **TecnoDrink**, with content focused on the beverage industry; the **Packaging Forum**, which addressed the main trends and innovations for packaging; and the **Digital Marketing Forum** which presented digital marketing cases for the food and beverage industries.

At the time, Doria emphasized the importance of the state of São Paulo to the country's economy and the role of the food and beverage industries in this context. In addition to the forums, the public was able to attend a wide schedule with content from entities and partner associations, such as **ABIA** Brazilian Association of Food Industries; **ABIMAPI** Brazilian Association of Industrialized Biscuit, Pasta and Breads & Cakes

Industries; **ABIQ** Brazilian Association of Cheese Industries; **ABIS** Brazilian Association of the Ice Cream Industries and Sector; **Abiad** Brazilian Association of the Food Industry for Special and Congener Purposes; **AmazonasCap**; **Afrebras** Association of Brazilian Soft Drink Manufacturers, and **SENAI Technology Institute**, which was attended by 580 delegates.

Economist **Ricardo Amorim** was the **Keynote Speaker** at FispalTec Arena. Active in the financial market since 1992, he currently shares all his knowledge through lectures and consultancies. During the event, Amorim presented an analysis of the current economic situation in Brazil and the scenario of the food and beverage industries.

FispalTec Arena also brought keynote speakers from large companies such as Ambev, Nestlé, PepsiCo, Danone, Coca Cola, Petrópolis Group, Kraft Heinz, Seara, Heineken, Natura, Klabin, Tetra Pak, among others.

"There are many visitors, procurers of the beverage industry from all the states of Brazil and from all different areas, including countries from Latin America and the European continent. Fispal TEC has become the company's main means of exposure to the market, and acts as a worldwide business card. The biggest challenge in participating in all editions of Fispal Tecnologia since 1991 is not accommodating with the same booth and same products. The event always urges Zegla to innovate."

Antônio Carlos Stringhini, President, Zegla Indústria de Máquinas para Bebidas

Has participated in Fispal Tecnologia for 28 years and the main factor to be present in all these years is mainly the visibility that the exhibition brings..

"A more qualified audience in this edition, this was our perception, with more consultations than the last attendance, precisely because the visitors were decision makers with the position of director, or even small and medium business entrepreneurs. As a result, we were able to prospect new business every day of the fair."

Caroline Hannickel, Caroline Hannickel, Market Development Coordinator, Aptar
